

# HOW DO OUR SERVICES ADD VALUE FOR OUR CUSTOMERS?

In addition to supplying packaging, we also offer these services:

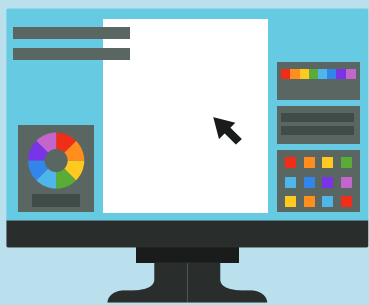

## 1) PRODUCT SOURCING

Instead of expending your team's resources and time to search, let us tap into our network of trusted vendors and leverage our long-standing relationships to provide you with multiple product offerings and options.

## 2) PROJECT MANAGEMENT

Because we guide you through every step of your product launch, our streamlined, cost-effective process saves time, ensures compliance and can prevent expensive mistakes and delays early-on.

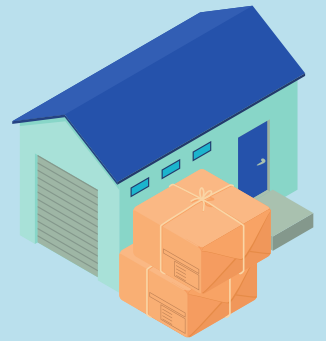

## 3) ART MANAGEMENT

Let our in-house design team recommend the latest trends, bring your product vision to life and exceed your expectations. We have decades of experience with nutritional and FDA labeling regulations.

## 4) WAREHOUSING

With our forecasting algorithm, we can help reduce your spend on excess inventory. Our warehouse safely holds your items plus safety stock to free up space in your facility to increase production, for example.

## 5) LOGISTICS

Simply place an order for your desired quantities, and we'll coordinate the transportation and manage any logistics issues on your behalf, communicating with you every step of the way.

## 6) INVENTORY MANAGEMENT

Your inventory has a designated team that meets weekly to discuss historical usage and review for variances. Your account manager can recommend purchase order quantities to meet production needs.

## 7) INVOICING

By consolidating vendors with one single-source supplier, all of your packaging and manufacturing needs arrive in one convenient delivery and are billed on one invoice, saving you time and resources.

ForeFront Packaging designs and implements packaging and supply chain solutions for food brands that free up time, reduce stress, and save money.
